

DO NOT EXCEED RECOMMENDED DAILY DOSAGE

NUTRACEUTICAL FACTS:

PHYSIOLOGICAL BASIS: "Reactive hyperemia" describes the increase in muscle blood flow that occurs during high-intensity resistance exercise and produces the "pump" associated with increases in muscle size. The NITRAFLEX™ pretraining formula contains ingredients that in vitro, animal and clinical studies suggest possess properties that may help advanced athletes maximize energy, intensity, vascularity and reactive hyperemia (pumps) during their workouts, and provide long-term support of testosterone and nitric oxide levels in the healthy range when used as directed.*

Ideal Applications:

- BODYBUILDING
- POWERLIFTING
- COMBAT SPORTS
- BOXING
- FOOTBALL
- BASEBALL
- BASKETBALL
- EXTREME SPORTS
- SKIING
- SKATEBOARDING
- VIDEO GAMING

UNIQUE PROPERTIES OF SOME OF THE KEY COMPOUNDS IN NITRAFLEX:

- **1-SCOOP POTENCY:** NITRAFLEX is so potent, only 1 scoop (1 serving) is necessary. Do not exceed 1 scoop in a single 24-hour period. Do not take NITRAFLEX with 5 hours of bedtime.
- **HIGH CITRULLINE: ARGININE RATIO:** Arginine is a proven precursor to nitric oxide (NO), a vasodilator. What most people don't know is that arginine supplementation stimulates the activity of arginase, an enzyme that breaks down arginine. Over time, this may actually result in reduced arginine and NO levels, in turn causing your preworkout formula to stop working. Research suggests that supplementing with a high ratio of citrulline to arginine may reduce this risk by avoiding overstimulation of arginase*.
- **6 WEEKS OF TESTOSTERONE:** Calcium fructopyranose borate (CFB) has been shown to increase testosterone in healthy subjects*. The average increase in total and free testosterone in a 6-week study was 56% and 29.5%, respectively. In a second study, total and free testosterone increased only 3 hours after a single dose of CFB.
- **EFFECTIVE DOSES OF BETA-ALANINE:** The clinically-proven performance enhancer beta-alanine was not "fairly dusted" in this formula. Rather, we added an exceptionally powerful dose that you will feel working following your very first serving. (May promote slight, tingly-cerebral sensation)
- **CREATINE-FREE:** Creatine causes water retention, which can make achieving a dry, hard muscular look even more difficult. Sometimes creatine is added to products precisely for this reason. (When you see yourself getting bloated, you may be fooled into thinking the product is "working.") We left it out of NITRAFLEX precisely for this reason. Thus making NITRAFLEX ideal for pre-contest prep.
- **COGNITIVE ENHANCERS:** NITRAFLEX contains unique ratios of scientifically validated compounds that help you remain alert, intense and focused while you're flying from set to set with veins fully dilated and muscles pumped to the extreme. (DMAE)

Note: One serving contains 325 MG Caffeine, Encapsulated Beta-PEA, 1500 MG of Beta-Alanine, and a clinically researched dose of CFB (Calcium fructopyranose borate - US Patent #5,962,049)

The 1st Clinically-driven Pro-Testosterone / Vasodilator More than 3X Strength

THE MOST POTENT, HARDEST-HITTING PRE-TRAINER FOR 2011

NGTC-GAT-071C
CREATINE-FREE

NITRAFLEX™ HYPEREMIA & TESTOSTERONE ENHANCING PWD

(Clinically-Studied CFB & Vasoactive Compounds*)

HIGHEST CONCENTRATION (MORE THAN 3X STRENGTH): 1-SCOOP POTENCY*

Scientifically formulated by, and manufactured exclusively for:
GAT/German American Technologies
64 Sunnyside Ave Fl 2, Stamford, CT 06902 USA
Technical support: 203.325.8567 www.TeamGAT.com

ORIGINAL
Maximum Intensity

Net Weight: 300 Grams Ready-to-mix powder Flavor Profile: Green Apple
FORMULATED FOR ORAL ADMINISTRATION ONLY. DO NOT EXCEED 1 SCOOP DAILY

Dietary Supplement

*The statements on this label have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

WARNING: DO NOT TAKE MORE THAN 1 SCOOP PER SERVING
VASODILATION* TESTOSTERONE* REACTIVE HYPEREMIA (MUSCLE PUMPS)* STRENGTH* ENERGY* HARDNESS*

SUPPLEMENT FACTS		
Serving Size: 1 Scoop (10 grams)	Servings Per Container: 30	
	Amount Per Serving	% DV
NITRAFLEX™ PROPRIECEUTICAL BLEND	7365 mg	**
Vasoactive Arginase-Regulating NO Precursor Complex		
2-Amino-5-(carbomoylamino)pentanoic acid, (S)-2-Amino-5-guanidinopentanoic acid, L-Arginine Alpha-ketoglutarate, (E)-5-(4-hydroxystyryl)benzene-1,3-diol, 4-[(E)-2-(3,5-dimethoxyphenyl)ethenyl]phenol		
Acute Energy, Focus, Intensity, Neuromodulating, Endurance Complex		
3-Aminopropanoic acid, 1,3,7-Trimethyl-1H-purine-2,6(3H,7H)-dione, 2-(Dimethylamino) ethanol, 2-acetylaminopropanoic acid, 2-Amino-4-(ethylcarbomoyl) butyric acid, Micro-encapsulated Beta-Phenylethylamine (for optimized absorption into the bloodstream), Rauwolfscine (Rauwolfia Canescens L. [Leaf And Root])		
Clinically-Studied Testosterone-Enhancing Complex		
Calcium fructopyranose borate (CFB) US Patent #5,962,049		
** Daily Value not established [Each scoop contains 325 mg of Caffeine]		

Other Ingredients: Citric Acid, Malic Acid, Acesulfame-K, Sucralose, Natural and Artificial Flavors, Silica, Blue#1, Yellow#5

WARNING: This product is strictly intended for use by healthy persons 18 years of age or older. Each serving (1 scoop) contains 325 mg of caffeine. Do not combine with other caffeine- or stimulant-containing products. Follow the instructions for assessing your tolerance. Do not use if you are pregnant, nursing or trying to become pregnant. Do not use if you are currently unaware of your health status or if you have a medical condition including but not limited to heart, liver, kidney, or thyroid disease, psychiatric or epileptic disorders, high or low blood pressure, cardiac arrhythmia, recurrent headaches, enlarged prostate or glaucoma. Do not use if you are taking prescription or non-prescription medication of any kind including but not limited to MAO inhibitors, anti-depressants, aspirin or non-steroidal anti-inflammatory drugs. Do not use if you are prone to overheating or dehydration. After 8 weeks of use, take 1 week off before resuming use. Discontinue at least 2 weeks prior to surgery or if you experience rapid heartbeat, dizziness, severe headache or shortness of breath.

KEEP OUT OF THE REACH OF CHILDREN AND PETS
Calcium fructopyranose borate is manufactured under US Patent #5,962,049 and licensed exclusively from VDF Futureceuticals, Inc. Visit www.TeamGAT.com for more information

RECOMMENDED DOSAGE

Training days: Day 1: Begin by assessing your tolerance with half a scoop (½ scoop) of NITRAFLEX™ mixed with 6-8 oz of cold water. Days 2 and beyond: Depending on tolerance, mix 1 serving (1 scoop) of NITRAFLEX™ with 6-8 oz of cold water and consume within 30 minutes before working out.

Non-training days: Take 1 serving (1 scoop) upon arising in the morning or before any physical activity. Do not take more than 1 serving in a single 24-hour period. Do not take within five hours of bedtime.

Optional - Stack NITRAFLEX™ "Tablets": Take 3-4 NITRAFLEX Stimulant-Free Tablets with 1 scoop of NITRAFLEX Powder 30 minutes before training for more dramatic effects. Visit TeamGAT.com for product info.

SPECIAL TIMES OF USE (TAKE 1/2 TO 1 SCOOP)

- Take before martial arts
- Take before powerlifting meets
- Take before long distance runs or intense cardio sessions
- Take before any type of weight training
- Take before sporting events
- Take anytime extreme energy/focus is needed
- Take before exams or anything that requires memory recall

MORE THAN TRIPLE (3X) POTENCY!
